

PROFILE SUMMARY

- Showcased strong technical ownership in **Adobe Experience Manager (AEM) development**, delivering scalable CMS solutions through custom components, Sling Models, workflows, and backend Java integrations aligned with enterprise architecture standards.
- Led end-to-end execution of complex **Drupal to AEM migration programs**, designing hybrid UI architectures combining legacy systems with modern Figma-driven interfaces, ensuring seamless content transition across platforms.
- Engineered robust **backend integration layers using Core Java and Servlets**, enabling secure and scalable data exchange between AEM and enterprise systems such as Salesforce, improving operational data flow and system interoperability.
- Contributed to **innovative GenAI-driven AEM enhancements**, including custom RTE plugins and API-based integrations (OpenAI/Gemini), with solutions showcased at Adobe Summit 2024, highlighting forward-looking digital experience capabilities.
- Recognized for driving **workflow automation and reusable component frameworks** within AEM environments, improving authoring efficiency, reducing operational effort, and enabling standardized content governance across projects.

CORE COMPETENCIES

- Adobe Experience Manager (AEM) Architecture
- Digital Experience Platforms (DXP)
- CMS Migration & Modernization
- Enterprise Content Management
- Java Backend Integration
- API Integration & Microservices Connectivity
- Workflow Automation & Orchestration
- Multi-region Content Delivery & Rollout Strategy
- GenAI-enabled Digital Experience Solutions
- Cloud-enabled Application Delivery

EDUCATION

Bachelor of Technology in Information Technology
Academy of Technology, Adisaptagram
2022

CERTIFICATIONS

- Certified Expert – Adobe Experience Manager Sites Developer | Adobe | Apr 2024 – Apr 2028
- Certified Professional – Adobe Experience Manager Developer | Adobe | Jan 2024 – Jan 2028
- Certified Professional – AEM Sites Technical Foundations | Adobe | Aug 2023 – Aug 2028
- AZ-900: Azure Fundamentals Certified | Microsoft | Jun 2022

TECHNICAL SKILLS

- Adobe Experience Manager (AEM 6.5 / AEM as a Cloud Service)
- Core Java
- Java Servlets
- Apache Sling
- OSGi Framework
- HTL (Sightly)
- JCR (Java Content Repository)
- Clientlibs (CSS/JavaScript in AEM)
- AEM Workflows
- Runmodes Configuration
- Experience Fragments (XF)
- Custom AEM RTE Plugins
- API Integration (Salesforce / REST APIs)
- CMS Migration (Drupal to AEM)
- AEM Headless CMS

WORK EXPERIENCE

Since Jul'25 | Cognizant Technology | Programmer Analyst

- Executing a large-scale Drupal-to-AEM migration program, developing a hybrid UI architecture comprising 50% legacy component mapping and 50% modern Figma-driven designs, ensuring seamless digital transformation and enhanced user experience.
- Building and optimizing Java-based backend integrations to connect AEM components with the Salesforce API, enabling secure, scalable, and high-performance data exchange for critical business operations.
- Driving automated content authoring and publishing workflows, while scaling multilingual content deployment and language copy management across 14 LATAM markets, improving operational efficiency and accelerating regional go-to-market delivery.
- Implemented AEM Headless CMS to streamline content delivery to NextJS backed structure for migration from legacy website CMS.

Jun'22-Jun'24 | Persistent Systems | Software Engineer

- Developed custom AEM components integrated with backend Java Servlets, aligning solutions with business and technical requirements.
- Implemented AEM Runmodes and workflows to streamline page staging, approval, and publishing processes.
- Deployed reusable components and Experience Fragments to improve authoring efficiency and optimize content delivery.

PROJECTS UNDERTAKEN

US Kitchen and Bathroom (Cognizant Technology | May 2026 — Present)

Led the implementation of **AEM Headless CMS** to streamline content structure and to leverage capabilities of **NextJS integration** for smooth frontend styling based on new Figma designs. Developed **Java-based backend with custom components for Salesforce APIs** for value input.

LATAM Pharma (Cognizant Technology | Jul 2025 – Mar 2026)

Executed a large-scale **Drupal to AEM migration**, building a hybrid UI combining legacy components with new Figma-based designs. Developed a **Java-based backend integrating AEM with Salesforce APIs**, enabling seamless enterprise data exchange. Automated **content authoring workflows, language copy scaling, and multi-market deployment across 14 LATAM regions**, improving publishing efficiency and consistency.

GenAI – AEM Accelerators (Persistent Systems | Jan 2024 – Jun 2024)

Developed AEM components and pages enhanced with **GenAI capabilities**, including custom **GenAI-enabled RTE plugins** integrated with servlets. Contributed to innovation in content authoring using **Gemini and OpenAI APIs**, and the solution was showcased at **Adobe Summit 2024**, highlighting advanced AI-driven CMS capabilities.

Luxury Home & Kitchen Appliances (Persistent Systems | Aug 2023 – Jan 2024)

Built and configured **custom AEM components and reusable Experience Fragments**, integrated with backend Java Servlets. Implemented **Runmodes and workflows** to streamline page staging, publishing, and authoring efficiency, ensuring scalable and reusable content architecture.

New Pharma (Persistent Systems | Aug 2022 – Aug 2023)

Developed and managed **AEM-based web pages, components, and assets** as per business requirements. Created **custom components and servlets** to support content authoring and dynamic page rendering within AEM 6.5 environment.

VOLUNTEER EXPERIENCE

- Alpha MLS Ambassador – Microsoft Learn Student Ambassadors CEE | Aug 2020 – May 2022
- Core Team Member – Developer Students Club, Academy of Technology | Aug 2020 – Jul 2021
- Member – IEEE Student's Chapter, Academy of Technology | Jan 2019 – Jul 2022
